

Managing change for *global* brands.

sevan
MULTI-SITE SOLUTIONS

A Certified Veteran Owned Company

Give Your Next EV Charging Program *The Strength of Sevan!*

Sevan Multi-Site Solutions is an expert and industry leader in **Electric Vehicle (EV)** Charging program management. Sevan puts your capital to work—*creating speed and scale*—providing cost savings via enhanced efficiencies and accelerated schedules. Our team of experts increases your return on investment by reducing construction timelines and minimizing customer disruption.

Sevan's in-house, hyper-collaborative team will engage with your organization—as an extension of your team—to provide EV and integrated solutions for your restaurant and retail multi-site initiatives including remodels, new builds and rebrands. Our offerings include asset condition assessments, scope development, site due diligence, prototype development, architecture & design, permit coordination and program management. Sevan's technology tools offer surveys, laser imaging, virtual tours and 3D assessment capabilities to help you quickly and thoroughly understand your existing site conditions. Accurate as-builts allow more effective design and also minimize construction change orders.

Sevan, a certified veteran-owned business, delivers data-driven and efficient turnkey solutions for capital improvement programs. Our exceptional team is standing by to guide all your projects across the finish line.

INTEGRATED SOLUTIONS & OFFERINGS

Sevan has installed EV charging stations for clients across the United States and United Kingdom. We have the expertise to help with any stage of your EV program lifecycle.

1. Initial survey for feasibility and electrical capacity
2. Concept plan layout for charger locations considering fire separation, ADA accessibility, electrical service routing and initial budget
3. Final plans and cost estimates
4. Contractor and vendor bidding and analysis
5. Permitting
6. Construction management and commissioning

EV WORK AND CLIENTS

Walgreens, Volta and Sevan team up to provide EV charging stations

CHALLENGE

Walgreens and Volta teamed up to provide EV charging stations at 49 Walgreens locations in the Pacific Northwest. Walgreens and Volta did not have sufficient program management capacity to deliver the initiative successfully.

SOLUTION

Sevan provided Program Management for the launch of the EV Charging Station Pilot program on Walgreens' behalf, managing the relationship with Volta to ensure the terms of the agreement were met and the project was completed within Walgreens brand design and engineering standards.

RESULTS

Sevan's expertise in project management and the company's strong relationship with Walgreens provided the groundwork for Sevan to successfully manage the development and installation of the EV charging station pilot programs without disrupting business traffic or the customer experience. More than 100 EV charging stations were installed across 49 stores within five months. To date, the stations have delivered 118,000 free miles to Walgreens customers and carbon emissions have been reduced by over 52,000 pounds.

"Whether your program is big or small, Sevan is fast to invest and bring on the talent needed to get the project headed in the right direction."

– Walgreens

"Sevan brings real expertise that you can't find anywhere. They really do live and execute on their message of safety and excellence and bring people who care about what they do – that's really hard to find elsewhere."

– BP
